Subject: leamington meeting 2-11-04-M/023/004

Doug Jensen and myself meet with the Leamington folks, Duane Crutchfield and Aaron Buffmack, plus a corporate person, Charlie ?. The purpose of the meeeting was to discuss the westward expansion of the quarry so that expansion of the Quarry would not involve future construction of major haul roads to access material to mine. Doug and I inform them that it should be a revision of the current plan and they could use the language and expand the map from the existing plan. There were no major issues that came to light and they plan on submitting the proposal by December of this year.
